| SECTION C. COGNITION 1. COGNITIVE SKILLS FOR DAILY DECISION MAKING Making decisions regarding tasks of daily life—e.g., when to get up or have meals, which clothes to wear or activities to do | Moderate difficulty—Problem hearing normal conversation, requires quiet setting to hear well Severe difficulty—Difficulty in all situations (e.g., speaker has to talk loudly or speak very slowly; or person reports that all speech is mumbled) |
| 0. <i>Independent</i> —Decisions consistent, reasonable, | 4. No hearing |
| and safe 1. Modified independence —Some difficulty in | 4. VISION Ability to see in adequate light (with glasses or with other visual |
| new situations only 2. <i>Minimally impaired</i> —In specific recurring | appliance normally used) |
| situations, decisions become poor or unsafe; | O. Adequate—Sees fine detail, including regular print in newspapers / books |
| cues / supervision necessary at those times 3. <i>Moderately impaired</i> —Decisions consistently | 1. <i>Minimal difficulty</i> —Sees large print, but not regular print in newspapers / books |
| poor or unsafe; cues / supervision required at | 2. Moderate difficulty —Limited vision; not able to see newspaper headlines, but can identify objects |
| Severely impaired—Never or rarely makes decisions | 3. Severe difficulty —Object identification in question. |
| 5. No discernable consciousness, coma [Skip to | but eyes appear to follow objects; sees only light, colors, shapes |
| Section G] 2. MEMORY / RECALL ABILITY | 4. No vision |
| Code for recall of what was learned or known | SECTION E. MOOD AND BEHAVIOR 1. INDICATORS OF POSSIBLE DEPRESSED, ANXIOUS, OR |
| O. Yes, memory OK | SADMOOD |
| after 5 minutes | Code for indicators observed in last 3 days, irrespective of the assumed cause [Note: Whenever possible, ask person] |
| b. Procedural memory OK—Can perform all or almost all steps in a multitask sequence without cues | Not present Present but not exhibited in last 3 days |
| c. Situational memory OK—Both: recognizes caregivers' —— names / faces fre quently encountered AND knows location | 2. Exhibited on 1-2 of last 3 days |
| of places regularly visited (bedroom, dining room, activity | 3. Exhibited daily in last 3 days a. Made negative statements—e.g., "Nothing matters; |
| room, therapy room) 3. PERIODIC DISORDERED THINKING OR AWARENESS | Would rather be dead; What's the use; Regret having lived so long; Let me die" |
| [Note: Accurate assessment requires conversations with staff, | b. Persistent anger with self or others—e.g., easily |
| family or others who have direct knowledge of the person's behavior over this time] | annoyed, anger at care received c. Expressions, including non-verbal, of what appear |
| Behavior not present Behavior present, consistent with usual functioning. | to be unrealistic fears—e.g., fear of being abandoned, |
| Behavior present, consistent with usual functioning Behavior present, appears different from usual | being left alone, being with others; intense fear of specific being left alone, being with others; intense fear of specific being left alone, being with others; intense fear of specific being left alone, being with others; intense fear of specific being left alone, being with others; intense fear of specific being left alone, being with others; intense fear of specific being left alone, being with others; intense fear of specific being left alone, being left |
| functioning (e.g., new onset or worsening; different from a few weeks ago) | d. Repetitive health complaints —e.g., persistently seeks medical attention, incessant concern with body functions |
| a. Easily distracted—e.g., episodes of difficulty paying | e. Repetitive anxious complaints / concerns (non-health related)—e.g., persistently seeks attention / reassurance |
| attention; gets sidetracked b. Episodes of disorganized speech —e.g., speech | regarding schedules, meals, laundry, clothing, relationships |
| is nonsensical, irrelevant, or rambling from subject to subject; loses train of thought | f. Sad, pained, or worried facial expressions —e.g., furrowed brow, constant frowning |
| c. Mental function varies over the course of the day— e.g., sometimes better, sometimes worse | g. Crying, tearfulness |
| 4. ACUTE CHANGE IN MENTAL STATUS FROM PERSON'S | h. Recurrent statements that something terrible is about to happen-e.g., believes he or she is about to die, have a |
| USUAL FUNCTIONING—e.g., restlessness, lethargy, difficult to arouse, altered environmental perception | heart attack |
| 0. No 1. Yes | i. Withdrawal from activities of interest—e.g.,long-standing activities, being with family / friends |
| 5. CHANGE IN DECISION MAKING AS COMPARED TO 90 DAYS AGO (OR SINCE LAST ASSESSMENT) | j. Reduced social interactions k. Expressions, including non-verbal, of a lack of |
| 0. Improved 2. Declined | pleasure in life (anhedonia)—e.g., "Í don't enjoy anything |
| 1. No change 8. Uncertain | anymore" 2. SELF- REPORTED MOOD |
| SECTION D. COMMUNICATION AND VISION | 0. Not in last 3 days |
| MAKING SELF UNDERSTOOD (Expression) Expressing information content—both verbal and non-verbal | 1. Not in last 3 days, but often feels that way 2. In 1-2 of last 3 days |
| 0. <i>Ŭnderstood</i> —Expresses ideas without difficulty | 3. Daily in the last 3 days 8. Person could not (would not) respond |
| We will be understood—Difficulty finding words or finishing thoughts BUT if given time, little or no | Ask: "In the last 3 days, how often have you felt" |
| prompting required 2. Often understood —Difficulty finding words | a. Little interest or pleasure in things you normally enjoy? |
| or finishing thoughts AND prompting usually required 3. Sometimes understood —Ability is limited | b. Anxious, restless, or uneasy? |
| to making concrete requests | c. Sad, depressed, or hopeless? |
| Rarely or never understood ABILITY TO UNDERSTAND OTHERS (Comprehension) | 3. BEHAVIOR SYMPTOMS |
| Understanding verbal information content (however able; with | Code for indicators observed, irrespective of the assumed cause |
| hearing appliance normally used) 0. Understands —Clear comprehension | O. Not Present Present but not exhibited in last 3 days |
| Wsually understands—Misses some part / intent of message BUT comprehends most conversation | Exhibited on 1-2 of last 3 days Exhibited daily in last 3 days |
| 2. Often understands —Misses some part / intent | a. Wandering —Moved with no rational purpose, seemingly |
| of message BUT with repetition or explanation can often comprehend conversation | oblivious to needs or safety b. Verbal abuse —e.g., others were threatened, screamed at, |
| Sometimes understands—Responds adequately to simple, direct communication only | cursed at |
| Rarely or never understands HEARING | c. Physical abuse —e.g., others were hit, shoved, scratched, sexually abused |
| Ability to hear (with hearing appliance normally used) | d. Socially inappropriate or disruptive behavior—e.g., made disruptive sounds or noises, screamed out, smeared or threw |
| O. Adequate—No difficulty in normal conversation, social interaction, listening to TV | food or feces, hoarded, rummaged through other's belongings |
| Minimal difficulty—Difficulty in some environments | e. Inappropriate public sexual behavior or public disrobing |
| (e.g., when person speaks softly or is more than 6 feet [2 meters] away) | f. Resists care —e.g., taking medications / injections, ADL assistance, eating |

|--|--|
| SECTION F. PSYCHOSOCIAL WELL-BEING 1. SOCIAL RELATIONSHIPS | h. Transportation —How travels by public transportation (navigating system, paying fare) or driving self (including getting out of house, into and out of vehicles) |
| [Note: Whenever possible, ask person] 0. Never | 2. ADL SELF-PERFORMANCE |
| 1. More than 30 days ago 2. 8 to <u>3</u> 0 days ago | Consider all episodes over 3-day period. If all episodes are performed at the same level, score ADL at that level. |
| 3. 4 to 7 days ago 4. In last 3 days | If any episodes at level 6, and others less dependent, score ADL as a 5. |
| 8. Unable to determine a. Participation in social activities of long-standing | Otherwise, focus on the three most dependent episodes [or all episodes if performed fewer than 3 times]. If most dependent |
| b. Visit with a long-standing social relation or family | episode is 1, score ADL as 1. If not, score ADL as least dependent of those episodes in range 2-5. |
| member | 0. <i>Independent</i> —No physical assistance, setup, or |
| c. Other interaction with long-standing social relation or family member—e.g., telephone, e-mail | supervision in any episode 1. <i>Independent, setup help only</i> —Article or device |
| d. Conflict or anger with family or friends | provided or placed within reach, no physical assistance or supervision in any episode 2. Supervision —Oversight/cuing |
| e. Fearful of a family member or close acquaintance f. Neglected, abused, or mistreated | Supervision—Oversight / cuing Limited assistance—Guided maneuvering of limbs, |
| 2. LONELY Says or indicates that he / she feels lonely | physical guidance without taking weight 4. <i>Extensive assistance</i> —Weight-bearing support (including |
| 0. No 1. Yes | lifting limbs) by 1 helper where person still performs 50% or more of subtasks |
| 3. CHANGE IN SOCIAL ACTIVITIES IN LAST 90 DAYS (OR SINCE LAST ASSESSMENT IF LESS THAN 90 DAYS AGO) | Maximal assistance—Weight-bearing support (including lifting limbs) by 2+ helpers —OR— Weight-bearing support |
| Decline in level of participation in social, religious, occupational or other preferred activities | for more than 50% of subtasks 6. <i>Total dependence</i> —Full performance by others during |
| IF THÉRE WAS A DECLINE, person distressed by this fact | all episodes 8. Activity did not occur during entire period |
| No decline Decline, not distressed Decline, distressed | a. Bathing —How takes a full-body bath / shower. Includes |
| 4. LENGTH OF TIME ALONE DURING THE DAY (MORNING | how transfers in and out of tub or shower AND how each part of body is bathed: arms, upper and lower legs, chest, |
| AND AFTERNOON) 0. Less than 1 hour | abdomen, perineal area - EXCLUDE WASHING OF BACK AND HAIR |
| 1. 1-2 hours 2. More than 2 hours but less than 8 hours | b. Personal hygiene —How manages personal hygiene, |
| 3. 8 hours or more 5. MAJOR LIFE STRESSORS IN LAST 90 DAYS—e.g., episode of | including combing hair, brushing teeth, shaving, applying make-up, washing and drying face and hands - EXCLUDE |
| severe personal illness; death or severe illness of close family member/friend; loss of home; major loss of income/assets; victim of | BATHS AND SHOWERS |
| a crime such as robbery or assault; loss of driving license/car 0. No 1. Yes | (street clothes, underwear) above the waist, including prostheses, orthotics, fasteners, pullovers, etc. |
| SECTION G. FUNCTIONAL STATUS | d. Dressing lower body —How dresses and undresses |
| IADL SELF PERFORMANCE AND CAPACITY Code for PERFORMANCE in routine activities around the home | (street clothes, underwear) from the waist down including prostheses, orthotics, belts, pants, skirts, shoes, fasteners, etc |
| or in the community during the LAST 3 DAYS | e. Walking —How walks between locations on same floor indoors |
| Code for CAPACITY based on presumed ability to carry out activ- ity as independently as possible. This will require "speculation" | f. Locomotion—How moves between locations on same floor |
| by the assessor. | (walking or wheeling). If in wheelchair, self-sufficiency once in chair |
| Independent—No help, setup, or supervision Setup help only | g. Transfer toilet —How moves on and off toilet or commode h. Toilet use —How uses the toilet room (or commode, bedpan, |
| Supervision—Oversight / cuing Limited assistance—Help on some occasions | urinal), cleanses self after toilet use or incontinent episode(s), changes pad, manages ostomy or catheter, adjusts |
| 4. Extensive assistance—Help throughout task, but performs 50% or more of task on own 5. Maximal assistance—Help throughout task, but ≥ | dothes - EXCLUDE TRANSFER ON AND OFF TOILET |
| 5. <i>Maximal assistance</i> —Help throughout task, but performs less than 50% of task on own 6. <i>Total dependence</i> —Full performance by others | i. Bed mobility —How moves to and from lying position, turns from side to side, and positions body while in bed |
| during entire period 0 0 0 | j. Eating—How eats and drinks (regardless of skill). Includes intake of nourishment by other means (e.g., tube feeding, |
| [DO NOT USE THIS CODE IN SCORING CAPACITY] | total parenteral nutrition) |
| a. Meal preparation —How meals are prepared (e.g., planning meals, assembling ingredients, cooking, setting | 3. LOCOMOTION / WALKING |
| out food and utensils) | a. Primary mode of locomotion 0. Walking, no assistive device |
| b. Ordinary housework —How ordinary work around the house is performed (e.g., doing dishes, dusting, | Walking, uses assistive device—e.g., cane, walker, crutch, pushing wheelchair |
| making bed, fidying up, laundry) | 2. Wheelchair, scooter 3. Bedbound |
| c. Managing finances —How bills are paid, checkbook is balanced, household expenses are budgeted, credit | b. Timed 4-meter (13 foot) walk |
| card account is monitored | [Lay out a straight unobstructed course. Have person stand in still position, feet just touching start line] |
| d. Managing medications —How medications are managed (e.g., remembering to take medicines, opening | Then say: "When I tell you begin to walk at a normal |
| bottles, taking correct drug dosages, giving injections, applying cintments) | pace (with cane/walker if used). This is not a test of how fast you can walk. Stop when I tell you to stop. Is this |
| e. Phone use —How telephone calls are made or | clear?" Assessor may demonstrate test. Then say: "Begin to walk now" Start stopwatch (or can |
| received (with assistive devices such as large numbers on telephone, amplification as needed) | count seconds) when first foot falls. End count when foot falls beyond 4-meter mark. |
| f. Stairs—How full flight of stairs is managed (12-14 | Then say: "You may stop now" Enter time in seconds, up to 30 seconds. |
| stairs) g. Shopping —How shopping is performed for food and | 30. 30 or more seconds to walk 4-meters 77. Stopped before test complete |
| household items (e.g., selecting items, paying money) - EXCLUDE TRANSPORTATION | 88. Refused to do the test 99. Not tested—e.g., does not walk on own |

| | c. Distance walked –Farthest distance walked at one time without sitting down in the LAST 3 DAYS (with support as needed) | 4. PADS OR BRIEFS WORN 0. No 1. Yes | |
|----|--|--|-----------|
